github.com/Shri-harini | Madurai, Tamil Nadu, India

Software Development Engineer (Member Technical Staff) at Zoho Corporation with expertise in full-stack development, data analytics, UI/UX design, and cloud technologies. Proficient in Java, Python, and the MERN stack with hands-on experience building scalable, production-grade applications. Skilled in Agile/Scrum workflows, OOP, REST APIs, and Git-based version control. Combines strong engineering fundamentals with creative UI/UX design capabilities to deliver intuitive, high-impact solutions.

Work Experience

Software Development Engineer (Member Technical Staff)

May 2025 – Mar 2026
Madurai, India

Zoho Corporation

- Engineered and shipped scalable product features in Java, contributing to 5+ Feature releases.
- Collaborated with senior engineers to design RESTful APIs and optimize backend modules, improving code maintainability.
- Followed OOP principles and Git-based version control workflows; participated in code reviews upholding engineering best practices across the team.

UI Design Intern

Jul 2024 – Aug 2024
Madurai, India

Dot Com Infoway

- Designed end-to-end UI/UX prototypes for 2 client-facing applications in Figma, reducing design-to-handoff cycle time by collaborating directly with the development team on implementation specs.
- Applied user-centered design principles to improve interface usability, receiving positive client feedback on all delivered prototypes.

Web Development Intern

Jun 2023 – Jul 2023
Madurai, India

Dot Com Infoway

- Built and maintained responsive web application features using HTML, CSS, and JavaScript; delivered 3+ UI components integrated into the production codebase within a 6-week timeline.
- Gained practical exposure to Git version control, REST API integration, and Agile development practices in a professional team environment.

Education

NPR College of Engineering & Technology

B.E. in Computer Science and Engineering

Oct 2021 – May 2025
CGPA: 8.33 / 10

Velammal Bodhi Campus

Senior Secondary (Class XII)

Aug 2019 – May 2021
Percentage: 86%

Technical Skills

Languages: Python, Java, C++, HTML, CSS, R, MySQL, Microsoft SQL

Frameworks & Tools: MERN Stack (MongoDB, Express, React, Node.js), REST APIs, Git, GitHub, Power BI, Figma, MS Office Suite

Cloud & Data: Microsoft Azure (Synapse, Cosmos DB), Snowflake, Generative AI, Data Science, Data Analytics

Practices: OOP, Version Control, UI/UX Design, Unit Testing

Soft Skills: Effective Communication, Team Collaboration, Problem Solving, Adaptability, Continuous Learning

Projects

Vision Shield | Python, Computer Vision, Deep Learning, OpenCV

- Built a real-time deepfake face detection system achieving ~92% detection accuracy on test datasets using deep learning models to identify AI-generated or manipulated facial images.

Worldly – Travel Booking UI | Figma, UI/UX Design, Prototyping

- Designed a 15+ screen UI/UX prototype for an AI-powered travel booking platform with personalized package recommendations based on user interests and budget inputs.

Credit Card Fraud Detection | Python, Scikit-learn, Machine Learning

- Built a binary classification model to detect fraudulent transactions from imbalanced financial datasets; applied SMOTE and feature engineering to improve model precision by ~15%.

Certifications & Recognition

Microsoft Certified: Azure Data Fundamentals (DP-900)

Google AI Essentials Certification

Recognized as “Young Python Professional” – Infosys Springboard

Pragati: Path to Future Cohort-3 – Infosys Springboard

Data Analytics and Visualization Job Simulation – Accenture

Data Visualisation: Empowering Business with Effective Insights – Tata

Network Essentials – Naan Mudhalvan with CISCO

Attendee, **Third Women in ML Symposium** – Google
